

MAMOA

MAMOA, a name that comes from mammulas, the original name given by the Romans when they arrived in the Iberian Peninsula, to oval and circular stone monuments, due to their resemblance to the female breast. They were built in stone and sand and were intended to protect their interior, thus giving them greater monumentality.

The technique used in the construction of the mounds demonstrates a skillful architectural solution to last.

These megalithic monuments are considered important relics. Having a symbolic meaning, the mammoas were a "womb" sheltered from the view, where relics were placed inside the earth. We can imagine that this deposition of relics would be like a return of a human to the womb of Mother Earth's maternal womb.

MAMOA thus identifies a brand that appeals to us in the lap, care and comfort.

Thus, each piece that we create and produce since 2011, is thought and designed where every detail is carefully studied in order to provide you with maximum comfort, as well as their exclusivity. The quality of the materials used by our craftsmen allows us to raise MAMOA to an exceptional level in the market.

Like mammulas, our goal at MAMOA is to ensure that each of our pieces is a treasure that gives you comfort, quality and exclusivity, making your dreams a reality.

Walnut wood structure with matt finish. Top finished with moulding work. Top of drawers finished in brass and lined bottom.

A close-up photograph of two wooden planks meeting at a diagonal joint. The plank on the left is a lighter, warm-toned wood with a prominent vertical grain. The plank on the right is a darker, richer brown wood with a more horizontal grain. The joint is clean and precise, running diagonally from the bottom left towards the top right. The background is a plain, light-colored surface.

ACCESSORIES

ALPHA mirror

Structure in MDF, veneered in Mutene wood and bronze mirror. Shelf for small items in the front of the piece.

SUR LE BOIS mirror

Walnut wood structure and matt varnish finish.

MAMOA

IDILIA folding screen
Structure in polished brass. Panels in ironwood leaf.

CRAFT

MAMOA

TRADITIONALLY CRAFTING

Craftsmanship's path began years ago, bringing the most glamorous pieces of furniture to life. By meticulously sculpting forms and carefully working the tiniest details, the hands of those who masterfully work noble materials create the masterpieces of undeniable splendor. Combining traditional methods with the latest manufacturing technologies allows us to shape mother's nature gifts into breathtaking furniture pieces. At MAMOA, we aim to humanize our art: more than shaping it, we strive to lend it soul by giving oxygen to manufacturing so that tradition continues breathing.

WOOD MAQUETRY & CARVING

MAMOA's pieces are assembled with high-quality raw materials, and the main protagonists of the production universe are noble woods. Mastering wood shaping techniques allows us to design singular motif combinations that create one-of-a-kind pieces. We flawlessly shape and finish the smallest artwork details by carving and shaping solid wood through traditional methods to keep nearly forsaken techniques alive and maintain our brand's handcrafting legacy. By hand-picking the most exquisite portions of wood veneers through traditional marquetry techniques, picturesque wood patterns are created to embellish pieces.

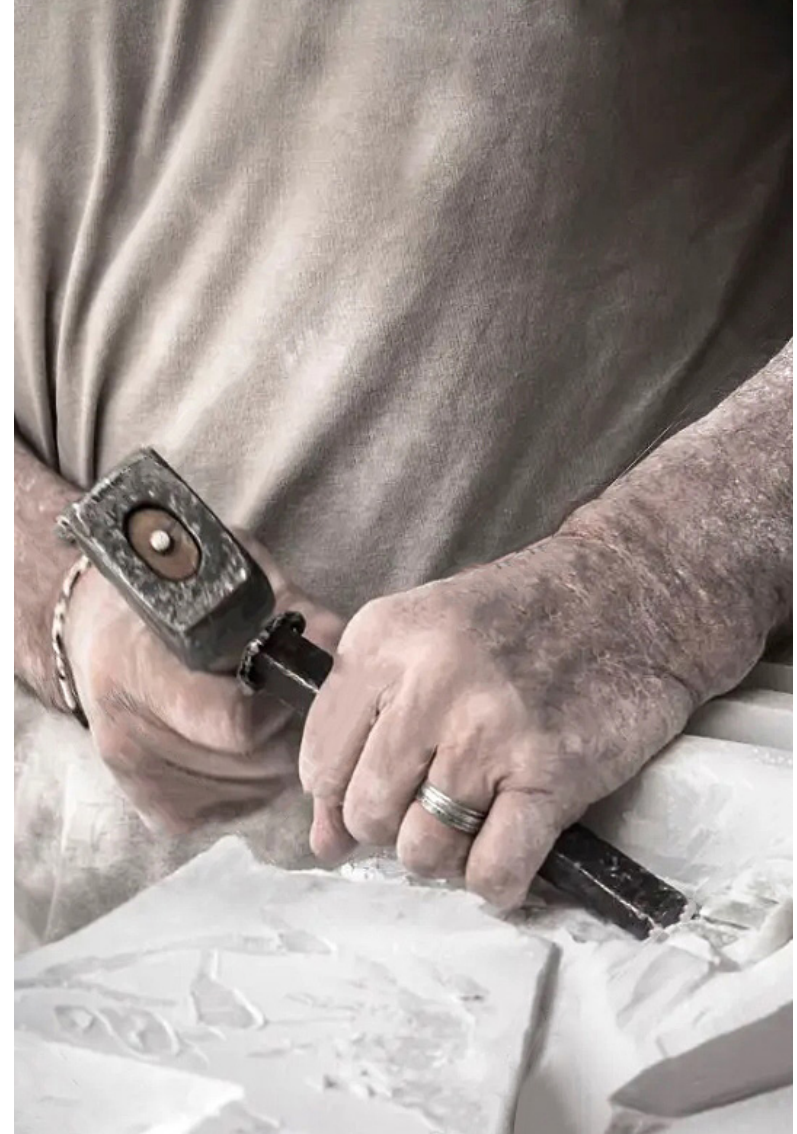

METAL WORK

The art of metal working provides an unimaginable potential when it comes to conceiving outrageous pieces of design. Refined metals must be handled with care and delicacy, which requires a selection of meticulous and efficient techniques to bring outstanding features to life. By traditionally casting metals such as brass, we creatively explore contours and shapes as the molten metal is molded into molds, embellishing the most exquisite details.

LEAF-GILDING

Applying thin metal layers is a delicate process that appeals to ornamental richness of sculptural artworks. Metal, wood, or stone surfaces are brought to life through the subtlety of leaf-gilding techniques. By delicately handling gold, copper and other metals with meticulous precision, artisans create exquisite designs and finishes, enriching our furniture with luxurious drops of tradition, making it inevitably seductive.

STONE WORK

Selecting the noblest stone materials heightens our creations' value, transforming them into refined, luxurious masterpieces. Our meticulously selected offer of stones and marbles, blended and matched with refined and delicate details and textures raises our artistry to a new level of sophistication.

FINISHES

MAMOA crafts one-of-a-kind luxury design pieces by understanding and valuing each project's uniqueness. Bearing that in mind, MAMOA offers a vast selection of premium materials, finishes and fabrics to suit each costumers' desires. With a wide range of finishes, every detail can be specially selected to fit each luxury interior design project. We aim to carefully design every finishing touch to ensure we outshine our client's singular expectations by offering the finest furniture design experience.
